PROFESSIONAL SUMMARY

Final-year BICT undergraduate at the University of Jaffna with experience in backend development, data science, and AI-powered applications. Skilled in Python, FastAPI, SQL, and cloud platforms (AWS, Azure). Hands-on in building scalable APIs, deploying ML models, and integrating Generative AI solutions. Passionate about solving real-world problems through innovative and efficient technology.

EDUCATION

Bachelor of Information & Communication Technology (Hons)

Apr 2022 - Present

University of Jaffna, Expected Graduation: 2026 | GPA: 3.5/4.0

Diploma in English

Jun 2024 - Sep 2024

SLEGA College

TECHNICAL & PROFESSIONAL SKILLS

- **Programming Languages:** Python, SQL
- **Libraries/Frameworks:** Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, FastAPI, Flask
- **GenAI/LLMs:** LangChain, OpenAI/Gemini APIs, Hugging Face, RAG
- **Tools:** Jupyter, Google Colab, Git/GitHub, VS Code, Streamlit
- **Database:** MySQL, PostgreSQL
- **Cloud Platforms:** AWS, Azure
- **Web:** HTML, CSS, JavaScript (Basic)
- **Soft Skills:** Leadership, Communication, Teamwork, Problem Solving
- **Languages:** English (Fluent), Tamil (Native), Sinhala (Basic)

EXPERIENCE

Backend Developer

Sep 2025 – Present

Sparta Capital (PVT) LTD - Remote

- Developing scalable backend services with Python, FastAPI, and PostgreSQL, while integrating GenAI applications.

Online ICT Tutor

Jan 2025 – Sep 2025

EDUS Online Institute – Remote

- Taught ICT to English & Tamil medium students (Grade 6 to O/L).

PROJECTS

ATS Resume Analyzer | [GitHub](#) | [Live Demo](#)

Jul 2025

- Built an ATS resume analyzer using Google Gemini models and Streamlit to evaluate resume-job matches with ATS scores and keyword recommendations.
- Integrated pdf2image and Pillow for secure PDF processing.

A-RAG-Powered FAQ Bot for Government Services | [GitHub](#)

Jun 2025

- Developed a FAQ chatbot utilizing Retrieval-Augmented Generation (RAG) via LangChain for Sri Lankan government service queries.
- Integrated vector search and LLM APIs, enhancing answer accuracy and reducing response time by ~40%.

End-to-End Machine Learning Project with AWS & Azure Deployment | [GitHub](#)

Oct 2024

- Engineered a complete ML pipeline from data preprocessing to model deployment on AWS and Azure.
- Implemented robust monitoring and CI/CD for reliable model updates.
- Achieved production-level scalability, improving deployment efficiency by 25%.

CERTIFICATIONS

Complete Data Science, Machine Learning, Deep Learning & NLP Bootcamp | [View Certificate](#)
Udemy | Completed: March 2025

Data Science Foundation Professional Certificate | [View Certificate](#)
IBM (via edX) | Completed: December 2023

Machine Learning with Python: A Practical Introduction | [View Certificate](#)
IBM (via edX) | Completed: January 2024

EXTRACURRICULAR ACTIVITIES

Member, IEEE Student Branch – University of Vavuniya	Feb 2023 - Feb 2024
Member, Student Union – FTS, University of Vavuniya	Jan 2024 - Jan 2025
Volunteer, Yarl IT Hub	Jan 2025 - Present
